

# Spicer<sup>®</sup> Electrified<sup>™</sup> e-Hub Drive

E01S

## Benefits

- A fully integrated electro-mechanical
- Compact length providing great design flexibility
- Advanced motor technology for higher efficiency with compact size and weight

## Features

- Utilize proven Spicer<sup>®</sup> Torque-Hub<sup>®</sup> drive design
- 1,000 Nm torque output in a small package size
- An internal spring applied, electronically released parking brake
- IP67 motor protection from environmental hazards

Ideal for Mobile Elevated Work Platforms

# Market-Driven **Electrified Innovations**

The Dana family of products continues to deliver solutions for Mobile Elevated Work Platforms

## 20 Years of Proof

For two decades, Dana products have solved electrification challenges for Mobile Elevated Work Platform (MEWP) manufacturers. These solutions have been proven effective time and again in enhancing efficiency and reducing total cost of ownership.

## Market-proven electric drives for propulsion

## World-class capabilities and expertise for wherever you are in your electrification journey

- Electrified solutions for both drive and motion systems
- Engineered for the challenges of a wide range of MEWP applications, including the requirements of urban worksites
- Dana's expanded product line includes motors engineered to support a wide range of input voltage.
